The following is an examiner's statement of reasons for allowance: Claims 10 and 35 include the limitation "said securing means comprising a clip assembly having first and second clipping arms attached to the rear of said head portions at first ends thereof, said first and second clipping arms defining a clipping space therebetween at second ends thereof, said clipping space receiving a portion of said body portion so that said door assembly is retained in said first, closed position" at the end of each claim. The patents of JP 2001-78874, Kelleghan (US D486377), Henderson et al. (US 6247730), Ayon et al. (US 4815999) and JP 10-118340 are the closest art or record and there is no suggestion to modify these structures at all to have this further structure and function from the above quoted limitation in combination with the other structure of the claims as it provides securement over and above any teachings from this art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

It is noted that claim 10, line 33 has "øf" and the claim uses the status identifier "(previously presented)". The inclusion of "øf" is a typographical error and should be ignored because "of" was cancelled previously.
